Alexander Rakotz
Endyne, Inc.
56 Etna Road
Lebanon, NH 03766

Dear Alexander Rakotz,

Thank you for applying for drinking water testing certification with the State of Vermont. Please find your laboratory's Drinking Water Laboratory Certification listing and Vermont Certificate enclosed with this letter. Please review these documents for accuracy and inform us of any possible discrepancies. The listing will be valid until the date on the Analytical Methods attachments [unless your primary accrediting body changes your accreditation status].

The Laboratory shall send updated certificates from its primary accrediting body(ies) within 10 business days of receipt to the Vermont Department of Health.

The granting of certification status is directly related to successful proficiency performance, corrective action, fully implemented quality assurance plan, audits and receipt of fees. The Certification Officer will review these areas prior to granting of certification status. Certification status may change during the calendar year.

If you have any questions, please call or write to me directly.

Sincerely,

Ali Boren

Certification Officer

Date signed January 9, 2024

As of January 31, 2024, this list supersedes all previous lists for this certificate number. Vermont Certification is based in part upon current New Hampshire Accreditation Certificate of Approval number 203723-A, October 18, 2023 – October 17, 2024. Laboratories are certified in Vermont based, in part, upon its Primary Accrediting Body(ies) drinking water accreditation(s). Also, loss of drinking water primary accreditation (in part or whole) constitutes loss of certification in Vermont for the same drinking water tests.

*State of Vermont Department of Health
Drinking Water Laboratory Certification*

Endyne, Inc.
Lebanon, New Hampshire

Is certified to perform analyses on drinking water pursuant to their most recent Drinking Water Laboratory Certification Listing.
